### EXPERIENCE

#### SWANSON HEALTH PRODUCTS - FARGO, ND FRONT END DEVELOPER

2014 - Present

Develop and maintain ecommerce applications supporting multi-million dollar sales. Ensure successful customer conversions and promote a quality user interaction across a wide demographic of users including non-technical individuals. Promote and integrate next generation technologies into the Swanson brand.

#### SUNDOG INTERACTIVE - FARGO, ND DIRECTOR OF WEB DEVELOPMENT

2011 - 2014

Supervised a team of 10 Web Developers for large scale projects including a global partner portal for Motorola Solutions and the public website for Bobcat. Demonstrated leadership ability by mentoring and coaching direct reports to ensure quality work and high morale. Ensured projects met timeline, budget, and expectations by enforcing project management practices. Demonstrated communication skills by interfacing with customer teams as well as 3rd party vendors. Showed ability to plan strategically by developing vision and goal plans for the department, team members, client projects, and technologies.

#### UNITED STATES ARMY RESERVE - BISMARCK, ND DETACHMENT COMMANDER

2010 - Present

Supervises a team of as many as 15 soldiers in construction management activities. Plans and prepares annual training missions for the detachment in support of construction operations for 5,000+ soldiers globally. Develops scopes of work and budget estimates for new construction and facility maintenance, repair or renovation.

#### H2M - FARGO, ND LEAD WEB DEVELOPER

2008 - 2011

Developed highly functional standards compliant websites leveraging both custom solutions as well as 3rd party tools. Worked with state agencies in North Dakota and Arizona to develop ADA and section 508 compliant websites.

### EDUCATION

#### NORTH DAKOTA STATE UNIVERSITY - FARGO, ND B.A. Computer Science

2005 - 2008
